Reasons for Allowance

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable because the prior art of record does not teach or fairly suggest a fuse latch circuit comprising all the features as recited in the claims and in combination with a first transistor of a first conductivity type, and a pulse signal for initialization is input to a gate; and a third transistor of a second conductivity type disposed immediately below the fuse, and the pulse signal is input to a gate, wherein conductance of the first transistor is higher than that of the second transistor.

Claims 2-20 are allowable as they depend from claim 1, which is also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bauer whose telephone number is 571-272-5986. The examiner can normally be reached on M-F 9am-6pm.
